

COVID-19 Vaccination Policy Package

For the last year, employers have been increasingly concerned with providing a healthy workplace for their employees due to COVID-19. The FDA recently approved two COVID-19 vaccinations for distribution in the United States. Many businesses are considering mandating vaccination of their employees once the vaccine becomes readily available. The CDC has noted that getting back to normal is going to take all of our tools, including vaccination and comprehensive safety measures. We know that our clients are short on time and other priorities consume Company resources, which is why we have created this fixed-fee, low stress service to assist you in navigating the EEOC guidelines.

If your business is considering mandating or highly encouraging COVID-19 vaccinations, the COVID-19 Vaccination Policy Package includes:

- COVID-19 Optional Vaccination Employer Policy;
- COVID-19 Mandatory Vaccination Employer Policy;
- Employee Informed Consent of the Vaccine Policy; and
- Waiver Forms for Employees who need a Reasonable Accommodation due to Disability or Religious Beliefs.

Developed based on EEOC guidelines, the COVID-19 Vaccination Policy Package includes a comprehensive overview for your business to implement a vaccination program. Moving forward with a vaccination program during these unprecedented times can provide a solid foundation for reducing transmission of COVID-19 in the workplace.

As always, please contact us with any questions or concerns. We can help.
